It Was a Long Time Coming, But the Neurs Was Righty Good—Nou For a Tie With Knoxville.

Maysville won a game

After much waiting and worrying, so enthusiasts made up a "pot" last night and wired a special request for the report of yesterday's game between Maysville and Asheville.

And after tarrying at the C. and O Station until nearly midnight a telegram came giving the good news that our boys had actually won a game.

The score stood Maysville 8, Asheville

Hits-Maysville 8, Asheville 7. Errors-Maysville 5, Asheville 4 Batterles-For Maysville, Reiman and Tenley; Ashevilie, unknown.

As our citizens have subscribed libe ally to aid the club, it does look as thoug the management might have enough cor sideration to send prompt reports of the games, especially when the telegraphic tolls are paid at this end of the line.

Now, boys, go back to Knoxville, pu Reiman in the points, and take two game from the Indians.

You've won a scrappy game; low take yourself to Knoxville town And twice repeat the same.

SHORT STOP

SHORT STOPS.

the Navies have agreed to the change.

The Covington Commonwealth says that itay Tenley, our star catcher, was at one time considered the best catcher in that section. What's the matter with him now? He's the best in the state.

The prospect of even a single good game of ball at Abbiand this season now appears slimmer than even. Without a park, and with no guarantee of expenses and inducement money for good teams to go there, what can be expected?

WEEKLY CROP REPORT.

Condition of Cereals and the Small Crops Throughout Kentucky Up to Monday Eccning Last.

The weather of the past week was characterized by a temperature considera-bly in excess of the normal, a nearly average amount of sunshine and frequent average amount of sunshine and frequent thunder storms fairly well distributed. The average amount of rainfall for the state was very near the normal, but was quite unevenly distributed, though rain of greater or less amount fell in nearly all parts of the state. In many of the Central and Southern counties very hard local rains are reported, in some instances accompanied by hall and high winds which damaged crops aerlously in localities of limited area. An unusual amount of damage to stock and buildings from lightings is also reported.

In some few districts in the Northeast-

lightning is also reported.

In some few districts in the Northeastera counties drouth conditions are still reported. Hough the principal complaint is of shortness of water for stock and the drying up of pastures, no serious injury of a general character to crops being reported. Generally speaking the conditions described have had a most favorable effect upon all forms of vegeration and the present outlook for the crops which are still unbarvested is very promising. The correspondent at Morganfield states that during an extensive trip made by him through the Western half of the state he saw the best crop prospects he had seen in vests. This statement is substantially true of other sections sloo. Wheat threshing has progressed during the week, and but little now remains in the fields. The reports relative to the yield continue to range from poor to fair, both as to quantity and to quality. The most favorable reports come, as a rule, from the Western half of the state, those from the Eastern and Northern sections generally indicating a poorer crop.

The rains have still further improved the outlook for oats, and the majority of correspondents state that a good yield is anticipated. The greater portion of the crop has been cut, except in the extreme Eastern counties, where it is ripening ranidity, and will be ready for cutting this week. Some tirashing has been done in the Southern and Western sections of the state. In some few districts in the Northeast

week. Some trasning has been done in the Southern and Western sections of the state. Hay cutting was nearly completed during the week, and owing to the recent rains, the yield is generally better than was anticipated some time ago, but is short of the average. Correspondents in the Northeastern counties, where the rainfall has been less than in the others, state that the meadows are very thin and dry, and that they will yield a poor crop. Correspondents in all parts of the state still report that corn is remarkably fine in appearance and the early crop is now almost assured. For six wecks past the weather conditions have been all that could have been desired for its progress, and, as a result, it is in exceptionally fine condition. Some damage was caused by high winds and hall, especially to the more advanced portion of the crop, and many fields were bady beaten down or washed out, but the injury was confined mainly to localities of limited area. A great number of reports state that the outlook for the crop is the best seen in many years.

outlock for the crop is the best seen in many years.

Tobacco was generally improved by the weakle conditions of the weakle, especially that portion which was planted late. It has recovered in most instances from the unevenness which marked its earlier growth, and its present rate of process will place it beyond the danger of early frosts. Much of the early planted portion of the crop in the Southwestern portion of the state has been topped. There are but few exceptions this week to the general reports of the flue condition of the crop.

be very plentiful and of good The prospects for late Irish p

6.1)cs have been greatly improved durithe week. A good crop of melons is aured. Hemp is doing well, but in a flocalities suffered some damage frowled and ball during the week.

Pastures were improved by the raid the week, but are still in poor contino, especially those of the Easts counties, where there is much compile of shortage of grass, and in some about its an insufficient supply of water is such is reported.

Agown Chemica, Co. Baltimore, Mr.

WE see nothing printed nowaday against those rascally "robber barons' who, a few years ago, were described by the Free-trade papers as existing merely for the pleasure of putting down the value of labor and robbing a wage earner of all that he possessed. Speaking of recent increases in wages, one of mugglest of Mugwump papers, Springfield (Mass.) Republican of July ith had this to say:

"In all cases, we believe, the increase as been granted voluntarily, and it constitutes the most remarkable record of the kind ever known in our indus-trial history."

The manufacturers and other gentle nen who have recently been "voluntarily" adding to the income of their em-ployes are the very same men who, in 1802, were described in a biackguardly way by this very same and other Mug wump and Free-trade sheets as the "rob ber barons" whose very existence even was a curse to the United States. Now that the "robber barons" are "voluntarily" increasing wages, these same senrilous sheets regard their action as the most remarkable record of the kind ever known in our industrial history. But when wages were reduced in 1892 they could only say that the employee had "rebber barons" as their employers

AT TORONTO.

The Coroner's Jury Finds a Verdict Against Holmes

For the Cruel Murder of the Pietzel Children Last October.

Warrant Has Been issued for His Appre ension—The Jury Was Out Only Fif-teen Minutes—Summary of the Evi-dence Given Before the Coroner.

dence Given Before the Coroson.

Tononro, Ont., July 23.—The inquest into the murder of the Pietrel children was concluded Wednesday night before Coroner Johason and a jury. Some evidence was taken and strong and vigerous summing up was made, and there was from the beginning no disagreement among them. They returned the following verdict: "That Alice Pietrel came to her death on or about the 23th of October, in the city of Toronto, and that Holmes, alias Modgett, alias Howard, did on each of the control of the

nity."

Coroner Johnson immediately issued his warrant for the apprehension of Holmes. This is the first case under the new criminal code in which intervention of the magistrate's court is unnecessary, and the matter will go

once to have Holmes extradited. The following is a summary of the evidence taken:
Albert Low, bookkeeper at the Albion hotel last October, identified photographs of the two livest girds are registered at the hotel in October last as Alice and Lizzie Canning. They were there several days, and their bill was paid by a strange man. Dr. E. S. McCullis swore that Holmes was in his office in October and positions of the control of Holmes. Holmes came to him to talk about practice of melicine, and cave him a card with the name of J. Howard Holmes, Cincinnati. Witness remembered this because he remarked to Holmes that he (Holmes) had the blood of all the Howards in him, and of the holmes of the holm of all the Howards in him, and of witness to go into partnership with him in Detroit or Cincinnati, but the offer was deedlined. Isaac Ambrust, who occupied the house in St. Vincent street, in the cellar of which the bodies of the children were found, was present when the abad odor in the kitchen for several weeks previous to the detectives visit.

a bad odor in the kitchen for ser weeks previous to the detectives to the house.

This concluded the

This concluded the evidence, the cor oner summed up and the verdict quick ly followed.

To Be Rushed to the Scene of the Indian Excitement.

The Trouble Was Instigated by Horse Thieves and Outlaws.

Bose, Ida., July 25.—Word was rereceived here Wednesday night that
troops from the deu-ment of
the Platte would be rushed to the
seene of the Indian excitement at
Col. Cook and staff, of Boise barracks, were interviewed Wednesday
by a representative of the United
Press, and Col. Cook said he had no
orders for moving to the seast of
trouble, though ha might receive some
the same of the country of the seast of
trouble, though the might receive some
the same and horse there were
sone hole is occupied by a tough lot
of outlaws and horse theires, who
have stirred up this trouble
with the Indians for some personal profit. There is no doubt that
some Indians have been killed, but the
new lish hard to get, though the settlers
there are arming for protection and
Wednesday night serious trouble seemed imminent. It is reliably reported
that the Shoshone Indians have joined
the Bannocks, and straggiers from
the Bannocks, and straggiers
the Bannocks, and straggiers
for the camp. Wednesday it was reported
that several families of settlers were
killed near Jackson's Hole, but the report lacks confirmation.

Pocaretico, Ida., July 25.—"Excitement in the Jackson Hole country is al
ment in the Jackson Hole country is al
ment in the Jackson Hole country is al

at Bayamo With Eight Thousand Men.

GEN. CAMPOS.

The Story of the Big Battle Near Manzanillo on July 13.

Among Them Several Officers.

Havana, July 25.—The full efficial details of the battle fought between Bayamo and Mansanille on July 13 has been received here. Gen. Campos started for Bayamo on July 13 with the Catholica three tables on the state of fastle the Catholica three tables on the part of the part of the party of the party of the party of the party of engineers, two companies of mounted guerillas and 1.00 men commanded by Gen. Santoellies.

Anot Macco, Bartolome Manso, Rabbi, and other prominent insurgent leaders, with a force of 7,000 men, were waiting for them and oppaned the battle og the read between Buyocito and Dattl.

with a force of 7,000 men, were walting for them and opened the battle on the road between Buycotto and Datil.

"The robels had 60 killed and wounded, among them being (sen Rabbl, Col. Among them being (sen Rabbl, Col. Gen. Santocillos, who was in the vanguard, received two bullets in the brast and in the forehead. He was killed. Campos then took command and broke the insurgent ranks, after which he formed his men into a square ranks and the sent of the santocillos and the sent of the santocillos and Adjl. Stotmaryer. The insurgents had taken up positions and deployed their lines on a stock farm. These positions were very advantageous, and they continued the fight creek. When the level ground was enached, the Spanish trongs were charged by a force of more than 3,000 cavairy under command of Macco, while the rebel infantry attacked the Spanish trongs were charged by a force of more than 3,000 cavairy under command of Macco, while the rebel infantry attacked the Spanish trongs were charged by a force of more than 3,000 cavairy under command of Macco, while the rebel infantry attacked the Spanish trongs under day to the sand to hand to have the sand the sand

columns of General Navarre consisting of 3,000 men. The rebels' chief Mendieta burned the town of Guayamo and costle town of Guayamo and costle burned "El Habanegro." All the wounded were gathered together as were the dead, and taken to Isayamo dien. Echayue has reached Hayamo with his brigade, so that Gen. Campos mow has 9,000 men and six pleeces of artillery. Proble opinion is manimous one. The new has been read with extraordinary satisfaction and criticisms designed to discredit the Spanish army are no longer heard.
